

I listen to XM Satellite Radio and its traffic and weather channels. Satellite radio provides variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I want and deserve. Please do not let the large radio and television owners, using their lobbyists, campaign contributions and political influence limit XM's ability to provide me with "locally oriented" content.
